

Past and present – traditional manufactory Wendt & Kühn

Exclusive and of timeless beauty – the vibrantly colored figurines and music boxes from traditional manufactory Wendt & Kühn. Innumerable designs and sketches handed down by company founder Grete Wendt (1887-1979) and designer Olly Wendt (1896-1991) still form the basis of our collection to the present day. With all our figurines being meticulously handcrafted in our Grünhainichen workshops today just as they were nearly 100 years ago. Each year, we comb through our archives to bring additional figurines into our collection. In doing so, our highest priority remains ensuring they are manufactured as faithful reproductions of the creators' original designs so they will retain their unmistakable character, radiating beauty, artisanry, tradition and exclusivity.
